

TILES SOLUTIONS

Evelino Tile Adhesive C2 Grey – Type 2T (Vitrified & Tile-on-Tile)

PRODUCT OVERVIEW

C2 Grey is a step up from our standard C1 adhesive, built for tiles that don't absorb much — vitrified, porcelain and natural stone — where you need a stronger mechanical bond rather than relying on the tile's own porosity. It's also rated for tile-on-tile work, so you can lay over sound existing tile in a bathroom or kitchen renovation without tearing everything out first, and it's waterproof enough for wet areas.

KEY FEATURES & PERFORMANCE ADVANTAGES

- Meets IS 15477:2019 Type 2T and EN 12004 C2T
- Rated for tile-on-tile: bond over existing sound tile without full demolition
- Anti-sag on walls, so large tiles hold their position while curing
- Higher bond strength than C1 — built for low-porosity vitrified and porcelain tiles
- Waterproof bond, suitable for bathrooms, kitchens and balconies
- Handles tile formats up to 60×60 cm on floors and walls

TECHNICAL SPECIFICATIONS & PERFORMANCE DATA

PARAMETER / PROPERTY	SPECIFICATION / VALUE
Packaging / Pack Size	20 kg Standard Bag
Estimated Coverage	Approx. 50–60 sq.ft per 20kg bag at a 3mm dry adhesive bed thickness
Tensile Adhesion Strength	e 1.0N/mm ² (C2 Grade)
Open Time	25–30 minutes
Application Temperature	+5°C to +35°C
Shelf Life / Storage	12 months stored off-ground under shaded dry conditions

APPLICATION GUIDELINES & SITE PRECAUTIONS

SURFACE PREPARATION & MIXING

Substrate must be structurally sound, dry, flat, and free of laitance, oil, grease, or loose debris. Mix thoroughly according to product technical directions. Use clean tools and potable water or hardener as specified.

STORAGE & ENVIRONMENTAL CONDITIONS

Apply in ambient temperatures between +5°C and +35°C. Avoid direct harsh sunlight and rain during application and initial cure. Store in original sealed containers in a cool, dry place off concrete floors.

HEALTH & OCCUPATIONAL SAFETY

Wear suitable protective gloves, safety goggles, and respiratory masks during mixing and application. In case of contact with eyes or skin, wash immediately with plenty of clean water and seek medical advice.
